DATA-DRIVEN SEASONAL SHOPPING INSIGHTS

Consumers begin searching for Back-to-School ideas—from kids' backpack essentials to tips for staying healthy—as early as July 15. Related topics continue to trend through the middle of August as people plan for the start of the new school year.

Advertisers can capitalize on Quotient's exclusive consumer spending, location intelligence and purchase intent data with an omnichannel digital strategy designed to reach consumers with multiple touch points across key channels during the back-to-school drive period.
